

SAVE THE DATE

November 29th – december 1st 2022

**36th EDITION OF TRUSTECH,
THE INTERNATIONAL EVENT DEDICATED TO INNOVATIVE
PAYMENTS AND IDENTIFICATION SOLUTIONS WILL
BE OPEN FROM NOVEMBER 29th TO DECEMBER 1st, 2022**
PARIS EXPO PORTE DE VERSAILLES, HALL 5.2

During this new TRUSTECH edition, Paytech and IDtech players will meet around the latest innovations in payment and identification solutions.

TRUSTECH 2022 will be structured around a flagship theme divided into three areas:

«Trust at the heart of every transaction »

CONVERGENCE

Because we strongly believe that the gap between traditional and decentralized finance is narrowing, and because we see technologies like blockchain quietly being introduced where nobody is looking...

RESILIENCE

Because we all need to know how strong and safe payment and identification systems are since those are cornerstones of every nation.

DIVERSITY

Because Covid19 inevitably narrowed our focus: how are other countries, other parts of the world doing? Where are the needs of a trusted identification paramount?

A series of high-level conferences where experts will share their views on innovative payment and identification solutions will be at the heart of the event again this year.

Innovations in terms of products and services for payments and identification will also be introduced during this event:

- Biometrics
- Cards, micro-modules for cards and other factors (smart objects)
- Cryptography
- Digital platforms
- Electronic components & sensors
- Generic OS for cards, readers and terminals
- IC and IC solutions (tools, services, process)
- IoT
- Materials, consumables, accessories
- National printings
- Service (others)
- Software and services for authentication and access control
- Software and services for identification
- Software and services for payment and loyalty
- Solutions and equipment for personalization of cards
- System integration and database management
- Terminals, readers and devices equipment
- Test equipment, certification and maintenance of system
