

THE LEADING EVENT FOR PAYMENT, IDENTIFICATION AND SECURITY PROFESSIONALS, TRUSTECH WILL PRESENT ALL THE LATEST TRENDS IN THE SECTOR

FROM 29 NOVEMBER TO 1 DECEMBER 2022
PARIS-EXPO PORTE DE VERSAILLES
HALL 5.2

For 3 days, actors and professionals of the innovative payments and identification solutions sector will meet at the TRUSTECH exhibition in Paris to discuss the themes of innovative payments and identification solutions, real pillars of the digital transition for institutional or commercial organisations.

TRUSTECH will host French and international exhibitors, as well as numerous start-ups. An opportunity to present their latest innovations, or to participate in pitch sessions on the Innovation Stage, an area located in the heart of the event.

Admission to the event is free and covers both the visit to the show and participation in the conferences.

EXCLUSIVE KEYNOTES

Every morning at 10:00, a renowned and influential expert of the industry will take the stage at TRUSTECH to deliver a major and inspiring exclusive keynote to start the conference programme.

Paul TIMMERS,
Research Associate, Oxford University

THURSDAY
1ST OF DECEMBER

"What milestones should be set for the next world economy ?"

Philippe DESSERTINE,
Director of the Paris Institute
of High Finance

CONFERENCES FOCUSING ON TWO MAIN THEMES : INNOVATIVE PAYMENTS AND IDENTIFICATION SOLUTIONS.

2022-2023, TRANSFORMATIONAL YEARS FOR IDENTITY? (ROOM 1)

With renewed challenges and opportunities for governments and private players, 2022 and 2023 also herald future upheavals with the adoption of mobile e-wallets and open up a number of perspectives in the evolution of the market.

In recent years, and accelerated by the health crisis, the preferred mode of operation has become «remote». As a result, the need for identification, authentication and authorisation, three key functions of digital identity, has increased in economic and civic relations.

WHAT DIGITAL FUTURE FOR PAYMENT? (ROOM 2)

What are the major developments in the payments market in Europe and worldwide? After observing increasingly data-driven payments as a result of Open Banking, the mobile wallet revolution and the prospect of central bank digital money, we need to consider the possible paths to an all-digital future.

In all likelihood the size of the global digital payments market will exceed eight trillion dollars by the end of the year. Biometrics, cards, mobile, data, crypto, digital currencies: digital payments are spreading everywhere and even becoming invisible in the most successful customer experiences.

The TRUSTECH conferences address all of these issues in detail to enable institutional and commercial players to understand the challenges they face. It is also a way to discover new technologies and solutions. The advent of trust innovations allows to secure all physical or digital transactions, official documents in paper format and digital identities.

TUESDAY NOVEMBER 29

ROOM 1 - IDENTIFICATION SOLUTIONS: AUTHENTICATION & ID MANAGEMENT

10:30 - 11:00 "Will e-wallets lead the future of digital identity?"

With Lorena BOIX ALONSO, Director for Digital Society, Trust & Cybersecurity, DG CONNECT, European Commission (tbc)

À PROPOS DE TRUSTECH

Créé il y a plus de 30 ans sous le nom CARTES SECURE CONNEXIONS afin de promouvoir une technologie qui venait de naître, celle de la carte à puce, l'événement est rebaptisé TRUSTECH en 2016 pour mieux refléter l'évolution du secteur et notamment toutes les technologies impliquées sur les marchés liés aux paiements innovants et aux solutions d'identification. www.trustech-event.fr/

À PROPOS DE COMEXPOSIUM

Trustech est organisé par Comexposium, l'un des leaders mondiaux de l'organisation d'événements.
