

# Protective Measures at TRUSTECH

TRUSTECH will feel slightly different this year, whilst ensuring the safety and security of all our exhibitors, visitors and partners.

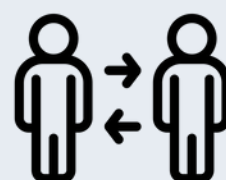

## PREVENTATIVE MEASURES

- Hand sanitiser stations will be available throughout the venue.
- Digital badges and contactless payment will be available.
- Face Masks will be required for all participants (including during build up and dismantling).
- Protective screens will be installed at information points and welcome desks.

## SOCIAL DISTANCING

- Separate entry and exit points in order to manage visitor flow and in compliance with recommended capacity.
- Redesign of meeting areas and conference rooms whilst respecting social distancing guidelines.

## REINFORCED CLEANING

- Stands and/or furniture provided by the organiser (equipment delivered in plastic covering).
- Aisles (removal of carpet).
- Infrastructure (services ramps, windows, lifts, etc).
- Public and service areas (benches, ashtrays, ATMs).

## SUSPECT CASES

- Procedure for the isolation and removal of suspect cases (e.g. journey to avoid exposure to the public),
- Dedicated isolation area, away from the public and separate from the First Aid area.

## COMMUNICATION

- Before the event: Regular sharing of information with attendees and partners on updated advice received from the relevant health authorities.
- On Site: Posted signage reminding attendees of the security measures (e.g. preventative measures, visitor flow, social distancing) and public announcements.

## SAFETY ADVISER

- Our Health and Safety Manager will coordinate and ensure the implementation of these measures at all times.
- A global group director will manage and evaluate the safety programme across all Comexposium events.

**We look forward to welcoming you  
to TRUSTECH!**
