

TRUSTECH 2022 : A FEDERATIVE EDITION FOCUSED ON RENEWAL

From November the 29th to December the 1st, the entire ecosystem of Innovative Payments and Identification Solutions gathered at Paris Expo Porte de Versailles for 2022 TRUSTECH edition. During these three intensive days of conferences, pitches and business opportunities, actors from the tech, smart card and innovative payment industries, as well as financial and governmental institutions, had the opportunity to exchange views on the major challenges they will have to take up.

The event has brought together 150 exhibitors (85% from outside-France) and more than 6500 attendees (70% from outside-France) which represents an increase of 30% compared to the previous edition. 70 conferences, keynotes and pitches have been presented by a hundred speakers.

TRUSTECH also hosted more than 600 business meetings: qualified and pre-programmed appointments between exhibitors and visitors with projects.

"TRUSTECH 2022 was a great success from every point of view. Many business meetings, scheduled upstream, took place during the fair, which highlighted how dynamic this industry is in terms of projects and commercial potential. A high-level programme was brought to our attendees, combining disruptive keynotes, roundtables on payment innovations, or pitches on identification issues... and of course, the many innovations showcased on the booths!"
declares Anne Frayssinet, TRUSTECH Director.

**THE 2023 EDITION WILL TAKE PLACE FROM
28TH OF NOVEMBER TO THE 30TH OF DECEMBER**
