#TRUSTECH2019

Exhibitors at the cutting edge of identification and secure transactions technology!

The unmissable meeting place [for leaders from the card industry and digital trust technologies](#), TRUSTECH taking place from **26 to 28 November**, will show off the latest innovations at the Palais des Festivals, Cannes. With more than 200 exhibitors, experts in their industry, TRUSTECH 2019 will highlight innovations. Among the exhibitors, promising start-ups, as well as industry leaders including: DERMALOG, PARAGON, LINXENS, GEMALTO, INFINEON, STMICROELECTRONICS.

Preview of the pioneer solutions which will be presented at TRUSTECH 2019:

Stand: LER B 024

A global leader in Augmented Identity for an increasingly digital world [Idemia](#) will showcase at TRUSTECH, its IDway identity management system. This solution consists of several interoperable components working together as a unified system solution to efficiently manage the identities of a country's population. IDway enables governments to provide sustainable credentials allowing every individual to be recognized by public and private services in person or online and to ensure each citizen is delivered a strong, unique legal ID from birth, valid throughout life.

Stand: RIV B 020

[Linxens](#), a leading technology company providing secure component-based solutions for security and identification, will be presenting its new sustainable product range, introducing new Prelam® available for card makers, card manufacturers and card issuers who wish to lower their environmental footprint. Committed to further secure connections, the company will also showcase its biometric solutions for payment and ID cards, and the new generation dynamic CVV authentication.

Stand : RIV C 050

Infineon Technologies, a world leader in semiconductor solutions, is at the forefront of security solutions that provide robust protection of identification and payment solutions. One of the highlights at this year's TRUSTECH will be the new SECORA™ ID solution combining security chip with Operating Software. The latest addition to Infineon's SECORA™ family is certified and ready to be integrated into highly secured eID documents as. Infineon will also be exhibiting a vast array of innovative payment wearables and hosting an impressive lineup of speeches exploring frontline topics such as the continued rise of Java Card™ technology.

Stand : RIV D 050

GET Group joins TRUSTECH 2019 with a portfolio of end-to-end Identity Management solutions that cover the full lifecycle of document issuance; from registration and enrollment to post-issuance services.

At this year's edition of TRUSTECH, GET Group will be launching its new security feature Reflective Variable Ink (RVI+), which enables eID issuers in high-security programs to personalize identity cards or driving licenses with multi-level authentication. In addition, GET Group will be showcasing its industry-leading mobile-based digital identity platform mID.

The Start-up village

Startups have great visions, operate under the influence of big-size creative thinking, and employ bold strategies. TRUSTECH will showcase the wealth of successful start-up companies and initiatives in the sector by hosting them on a dedicated area, the start-up Village, to highlight their innovations.

Below is a non-exhaustive selection of startups that will attend on the start-up Village:

- **Andrupos BV - Stand RIV Pod 004**

ANDRUPOS is a leading edge web based automated document examination system capable of authenticating printing techniques, and even identify printers by manufacturer and model and paper sources. The solution provided by the company offers the possibility to identify different printing technologies such as offset printing, inkjet printing, toner printing and other digital printing technologies. One of the most innovative features is the ability to link forged or counterfeit documents to a specific printer (manufacturer and model), in order to gather forensic proof. This way organized crime can be easily traced.

- **IDentiks card and RFID solution - Stand RIV Pod 006**

The company offers both simple as well as complex solutions for identification in the workplace and events, loyalty cards and accreditation with an increasing focus towards RFID (contactless) solutions. In 2016 the innovative IDentiks card and RFID solution was adopted in ABC accelerator.

- **Pe2M GmbH - Stand RIV Pod 003**

Pe2M provides solutions in the area of card printing by modifying and refining existing hardware to cater for special requirements. In many cases, the company combines all the ingredients into one custom made solution, together with all the consumables and services included. One of the key products is the 2XL+ printer for oversized credentials.

- **RESOLUT ELEVEN GMBH & CO. KG - Stand N RIV Pod 005**

RESOLUT ELEVEN has established as an authority center for printing technology. Within a time of an always increasing technology the company is at the cutting edge of innovation in the graphic arts industry.

- **Rubean AG - Stand RIV Pod 001**

PhonePOS by Rubean enables any merchant of any size with a decent Android phone to download an app and be ready to accept NFC-enabled payments in minutes without any extra hardware or dedicated machinery.

- **S2P - Smart Plastic Products - Stand RIV Pod 002**

S2P designs and manufactures tamper-detection devices to protect against physical intrusion of payment terminals.

Innovation Stage

The TRUSTECH Innovation Stage located on the Riviera level alongside the exhibition is the central place in the event entirely dedicated to innovation. It will provide a comprehensive programme of lively pitching sessions (5-20 minutes) delivered by an international community of innovators & disruptors.

Highlights include the Presentation of Capgemini's and Edgar, Dunn & Company's respective reference payment reports **on Wednesday 27 November:**

- 3:00 pm: 'Monetizing quick win solutions while building a robust ecosystem strategy can help banks stay in the payments game - World Payments Report 2019'
Presentation by *Christophe Vergne - Payment Solutions - Capgemini*
- 4:20 pm: 'Going global... Fintech takes on the world' Findings of d'Edgar, Dunn & Company's Fintech 2019 report released at TRUSTECH
Presentation by *Martin Koderisch - Principal - Edgar, Dunn & Company*
